The basement bedroom makes this an ideal haven for visiting family members or the teenager who wants their own space to retreat. Completing the lower level is a 2 piece powder room, storage room and a utility room with a newer tankless water heater & water softener. The updated back french doors will escort you to the ultimate low maintenance

backyard oasis where you will find replaced railings & a newer composite deck, in deck lighting, a new fence with 3 access points, an enclosed dog run, an in-ground sprinkler system, a shed for all of your essential seasonal items and a hottub that serves as an epic entertaining piece of the backyard. The yard is private and treed with an abundance of flowers and fruit that bloom come Springtime. Additional noteworthy updates include new toilets on the main and upper level, a fresh coat of paint and trim throughout the home, a newer thermostat and doorbell, upgraded attic ventilation, a newer garage door and opener (2020) and complete replacement of all poly-b piping throughout the home.
